Summary

With 2.5 years of experience in the UX/UI field, I am currently seeking new opportunities to deepen and expand my skill set. For me, UX is not just a profession – it is a passion where creativity, design, and psychology intersect to create meaningful, user-centered experiences.

I am eager to grow within areas such as graphical user interfaces, UX research, and web development, while also applying my skills in new domains. [Nordicwallprints.com](#) – UX/UI Design, UX Research & Project Management (ongoing)
